Part-time Laboratory Technician/Aquarist

We are looking for a lead technician for a series of seagrass mesocosm experiments to be conducted in the Marine Science Building on FIU's Biscayne Bay campus. Main responsibilities include setting up mesocosms, maintaining them and sampling seagrasses and sediments from within the tanks over the course year-long experiments. Additional duties may include the laboratory preparation of seagrass samples for chemical analysis, along with computer data entry and QA/QC procedures.

Familiarity with marine biology, water chemistry and aquarium maintenance required. A strong work ethic, attention to detail, and organizational skills are also essential.

Project to begin in October 2021. Pay rate: $17.50/hr for 20 hr/wk.

Applications are being accepted immediately. Please send: 1) your CV including relevant skills, and (2) contact information for 2 references to Dr. Justin Campbell at jcampbel@fiu.edu
